FIG. 1

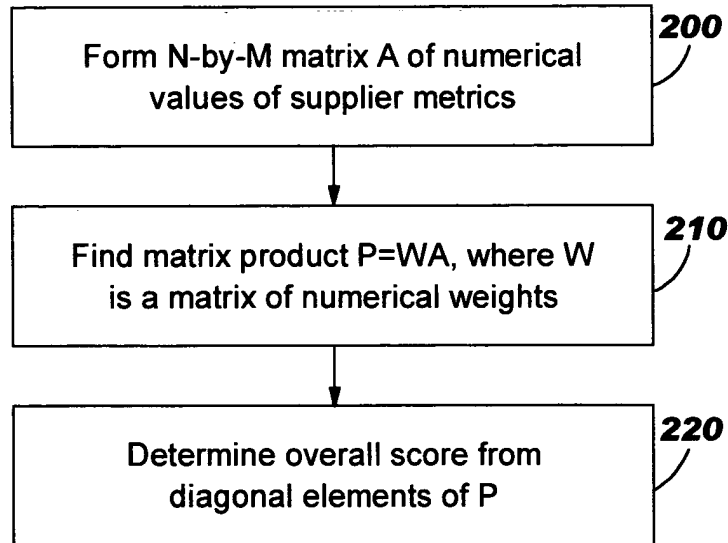

2/3
FIG. 2

FIG. 3

Figure 1 illustrates a matrix multiplication operation. The operation is represented as:

$$\begin{bmatrix} 0.30 & 0.20 & 0.30 & 0.20 & 0.10 & 0.20 & 0.10 & 0.30 \\ 0.10 & 0.60 & 0.10 & 0.20 & 0.20 & 0.10 & 0.20 & 0.10 \\ 0.20 & 0.20 & 0.20 & 0.20 & 0.40 & 0.20 & 0.20 & 0.20 \\ 0.10 & 0.40 & 0.10 & 0.20 & 0.40 & 0.10 & 0.20 & 0.60 \\ 0.25 & 0.25 & 0.25 & 0.25 & 0.25 & 0.25 & 0.25 & 0.25 \\ 0.10 & 0.60 & 0.10 & 0.20 & 0.20 & 0.10 & 0.20 & 0.10 \\ 0.00 & 0.70 & 0.10 & 0.20 & 0.20 & 0.10 & 0.20 & 0.00 \\ 0.10 & 0.60 & 0.10 & 0.20 & 0.20 & 0.10 & 0.20 & 0.10 \end{bmatrix} \times \begin{bmatrix} 0 & 0 & 0 & 0 & 0 & 0 & 0 & 0 \\ 0 & 0 & 0 & 0 & 0 & 0 & 0 & 0 \\ 0 & 0 & 0 & 0 & 0 & 0 & 0 & 0 \\ 0 & 0 & 0 & 0 & 0 & 0 & 0 & 0 \\ 0 & 0 & 0 & 0 & 0 & 0 & 0 & 0 \\ 0 & 0 & 0 & 0 & 0 & 0 & 0 & 0 \\ 0 & 0 & 0 & 0 & 0 & 0 & 0 & 0 \\ 0 & 0 & 0 & 0 & 0 & 0 & 0 & 0 \end{bmatrix} = \begin{bmatrix} * & * & * & * & * & * & * & 0 \\ * & * & * & * & * & * & 0 & * \\ * & * & * & * & * & 0 & * & * \\ * & * & * & * & 0 & * & * & * \\ * & * & * & 2.0 & * & * & * & * \\ * & * & 2.8 & * & * & * & * & * \\ * & 0 & * & * & * & * & * & * \\ 0 & * & * & * & * & * & * & * \end{bmatrix} \times \frac{3}{3}$$

The result matrix (303) contains numerical values, with some values highlighted in bold (e.g., 2.0, 2.8, 0.70, 0.60, 0.60, 0.60, 0.60, 0.60). The multiplier $\frac{3}{3}$ is applied to the result matrix.
